

Town of Farmingdale
Road Commissioner's Report

It has been Three years since I was elected by you the Town's People of Farmingdale. In that Three Years there has been Numerous projects that have been done. We have ditched roughly speaking 15 miles of the Streets and Roads, along with the changing of many driveway culverts that were beyond their service expectancy. There has been a lot of work that was performed in Hayford Heights and Kennebec Drive. We paved 1 mile of outer Northern Ave with the intent to pave another mile in the near future. That mile will be done in two half mile pieces, with the removal and replacement of Three cross pipes. We also intend to do more ditching and driveway culverts in various places here in town along with the intent to pave the Outlet road, along with the Blaine Road within the next year. There have been other projects that have gone on in Town like 10 of the Sewer Manholes on Maine Ave, That's to name a few.

I want to Thank McGee Construction and E.C. Barry for their work in the keeping all our Streets, Roads and Sidewalks Plowed, Sanded and Free of Ice and Snow over the last Three years that I have been the Road Commissioner.

I also want to Thank BHS Construction, E.C. Barry, Excalibur, Crockett Construction, D&D Excavators, Dirt Diggers, St.Laurent & Sons, Pratt & Sons, CCC Construction, Capital Tree, Brownies Tree Service along with Pike Industries for the work they have performed for the Town of Farmingdale.

I want to thank the residents of this Town for giving me the opportunity to be the Road Commissioner for the past 3 years, also I'm in the running to be the Road Commissioner for the next 3 years.

Thank You

Stephen J. Stratton

Town of Farmingdale Road Commissioner
