

**TOWN OF FARMINGDALE**  
**289 Maine Avenue**  
**Farmingdale, Maine 04344**

First, I want to sincerely hope you have all been safe and healthy through this COVID-19 business. It has certainly been a trying and challenging time for everyone. Hopefully, in a safe period of time, we will begin to see signs of normalcy appear. It will take some time.

Second, I would like to take this time to thank our office staff. They have been working hard to make sure that business continues at the town house. There are different ways of registering vehicles, paying taxes, getting permits, and wedding licenses, and more. They have been very creative in meeting our needs. Please call them if you need assistance.

Third, I would like to address voting and town meeting. At this moment, voting will take place on July 14<sup>th</sup> with the town meeting being July 16<sup>th</sup>. With this being said, we may have to do all absentee voting depending on what the Maine Municipal Association tells us what will be acceptable at the time. We, the Selectboard, and the office staff have been trying to stay on top of this so we will be ready and organized when the time comes.

Next, I hope that everyone had a chance to tour the new fire station on their open house days. It is truly a beautiful station that we can all be proud of. It is highly functional and will serve the fire department and the town for many, many years. This was many years in the making and very much needed. I am glad I was able to be a part of it along with all of you. We did it together.

And on that note, our next big project will be making the town office ADA compliant, which it is not at this time. We hope to turn the old fire station into a board meeting room, eliminating the stairway now. There will be a handicap bathroom as well as handicap accessible entrance and service window. This will be brought up at town meeting and I hope that everyone will ask questions and be on board to make this happen.

The LED street lights have been installed. We are still working with CMP on any rebates, so we do not know the true savings, but it certainly looks like it is a very significant savings. Please if any lights go out on your street, call the town clerks ASAP so they can address it immediately.

Respectfully Submitted

Nancy T. Frost  
Chairman  
Farmingdale Board of Selectmen
